

CAREER OPPORTUNITIES**BUSINESS ANALYST/ CONSULTANT**

Location: Hyderabad, IN

Amphora Software Pvt. Ltd. is the premier software solution provider for energy trading, logistics and risk management in the global crude oil, refined products and energy derivatives marketplace. Our team includes some of the most experienced software designers, developers and business analysts in the commodities industry today. Since our inception, our main goal has been to provide the trading community with the most robust, user-friendly, enterprise-wide software package available. We continue to launch new products that address customers' needs and adjust to dynamic market demands.

Roles and Responsibilities:

- Works closely with teams in India as well as with personnel across the globe in different time zones in departments like Sales, Product, Dev, Support and QA etc.
- Prepares client scenarios and demos of software system.
- Assist in organizing requirement gathering workshops
- Understand client requirements and write up specs
- Works with Product, Dev and QA to make sure quality product or business solution is delivered.
- Assists in implementation cycles and end users' training
- Provide Go-live and post Go-live support
- Support clients and fine tunes their operations continuously after go-live
- Suggest best practices/product solutions to optimize business processes.

Experience and Expertise:

• 2-5 years' experience in a Business Analysis role - Preferably in a product software company dealing with business applications in multicommodity sphere like Oil, Coal, Power, Ags, Metals and Concentrates etc. Must have first-hand experience of requirement gathering, scenario building, writing functional specs, test cases, documenting As-Is and To-Be processes, product demonstrations and workshops etc. Functional knowledge of commodities, supply chain, or risk management, and technical knowledge of systems integration involving large ERP packages (SAP, Oracle, etc.), or banking software (like Finacle) would be added advantages.

CAREER OPPORTUNITIES**Skill Set**

- Proactive with thoroughness and attention to detail in communication, documentation etc. with zero assumption attitude.
- Strong analytical thinking with ability to grasp customer requirements, conceptualize solutions and present ideas
- Great command on PowerPoint, Excel
- Preferably a techno-functional bent of mind
- Excellent written and verbal communication skills with the ability to prepare and eventually deliver presentations to audiences, demonstrating knowledge of domain and technology.

Requirements:

MBA from Tier-1/Tier-2 institutes and, or, B.E/B.Tech

Benefits:

We value our employees' time and efforts. Our commitment to your success is enhanced by our competitive salary, depending on experience, and an extensive benefits package including paid time off, medical, dental and vision benefits and future career growth opportunities. Plus, we work to maintain the best possible environment for our employees, where people can learn and grow with the company. We strive to provide a collaborative, creative environment where each person feels encouraged to contribute to our processes, decisions, planning and culture.
